✓ User registered successfully

Step 3: After successful registration, a new page will open.
Use your **registered Email** and **Password** to log in to your account.

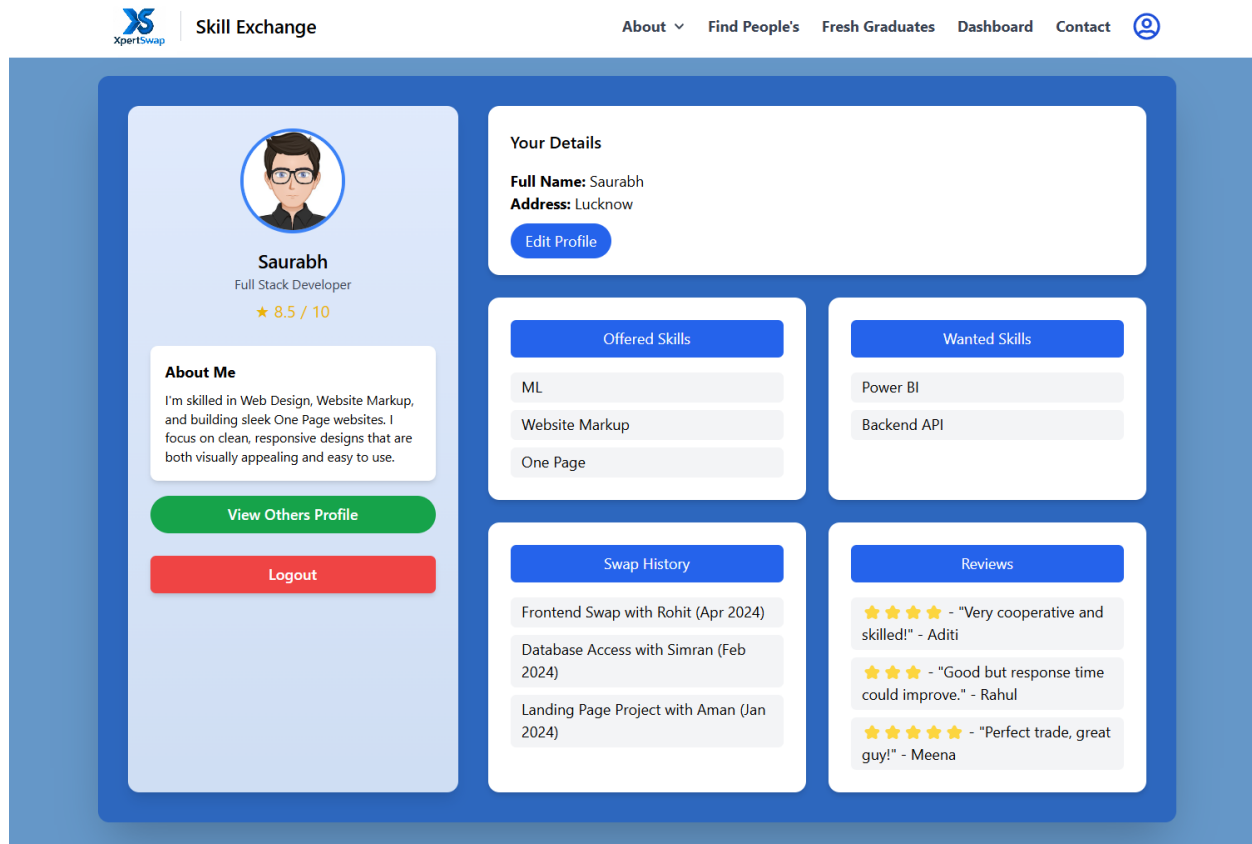

The image shows the XpertSwap Skill Exchange website's login page. The header includes the XpertSwap logo, the text "Skill Exchange", and navigation links for "About", "Fresh Graduates", "Contact", "Register", and "Login". The main content area features a large blue background with a white login box. On the left side of the box is a graphic with the XpertSwap logo and the tagline "Swap Skills, Grow Together! Hyperlocal-to-Peer Learning". It includes a "Problem" section with the text "Want to learn guitar but can't afford classes?" and a "Solution" section with the text "Cooling Lessons Spanish Tutoring". Below this is the text "Swap what you know for what you want to learn. No money. Just skills. Learn locally or online." The right side of the login box is titled "Welcome Back — Log In" and contains two input fields: "Enter Your Email" and "Enter Your Password" (with a "show" link). Below the password field is a blue "Log in" button. At the bottom of the login box, it says "Don't have an account? Sign Up".

After logging in, a pop-up message will appear at the top of the website confirming a **successful login**.

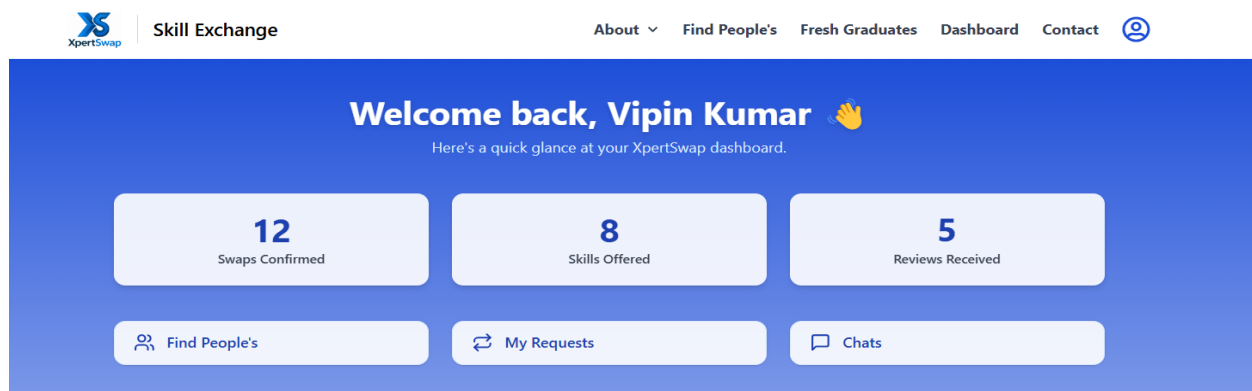

Step 3: After logging in, click on the **Profile icon** located in the top navigation bar.
This will open your **Profile Page**, where you can view and edit your personal

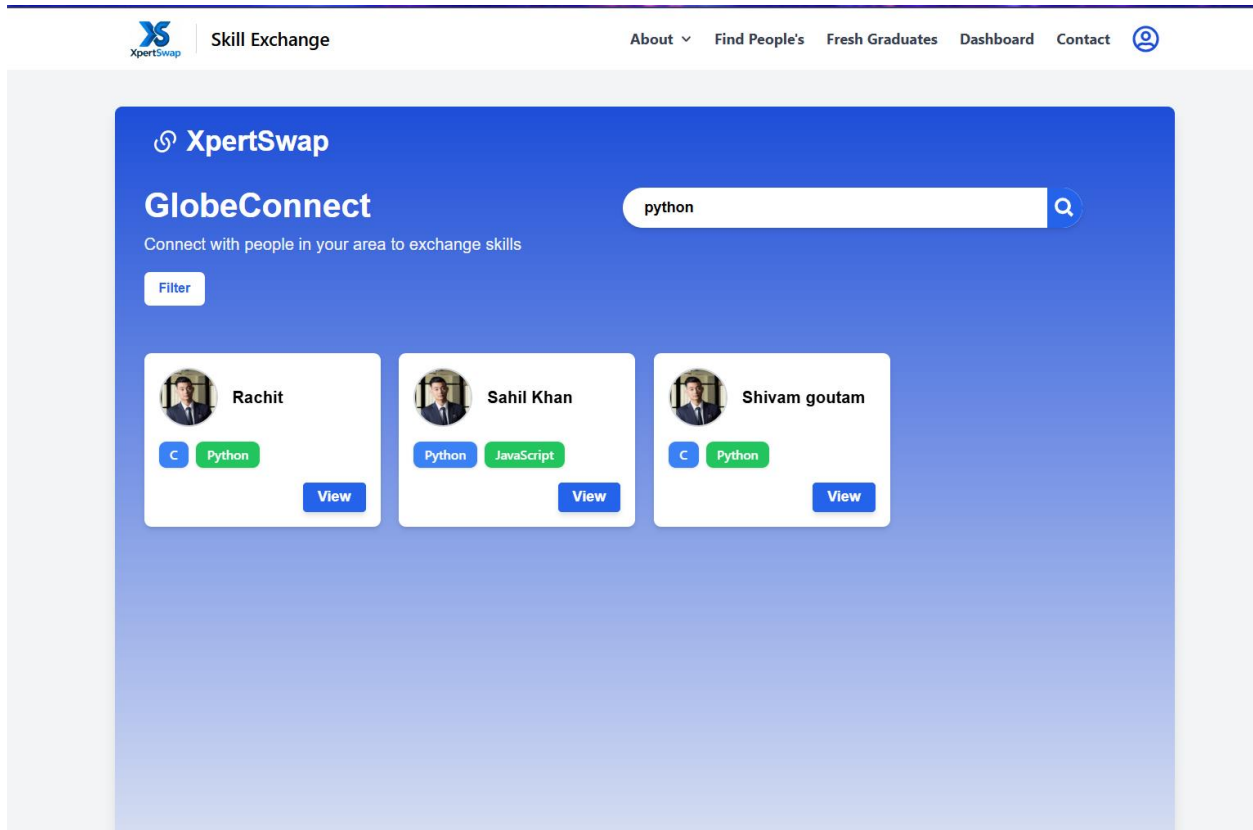

details. You'll be able to see the **skills you have added**, the **skills you want to learn**, as well as your **reviews** and complete **swap history**.

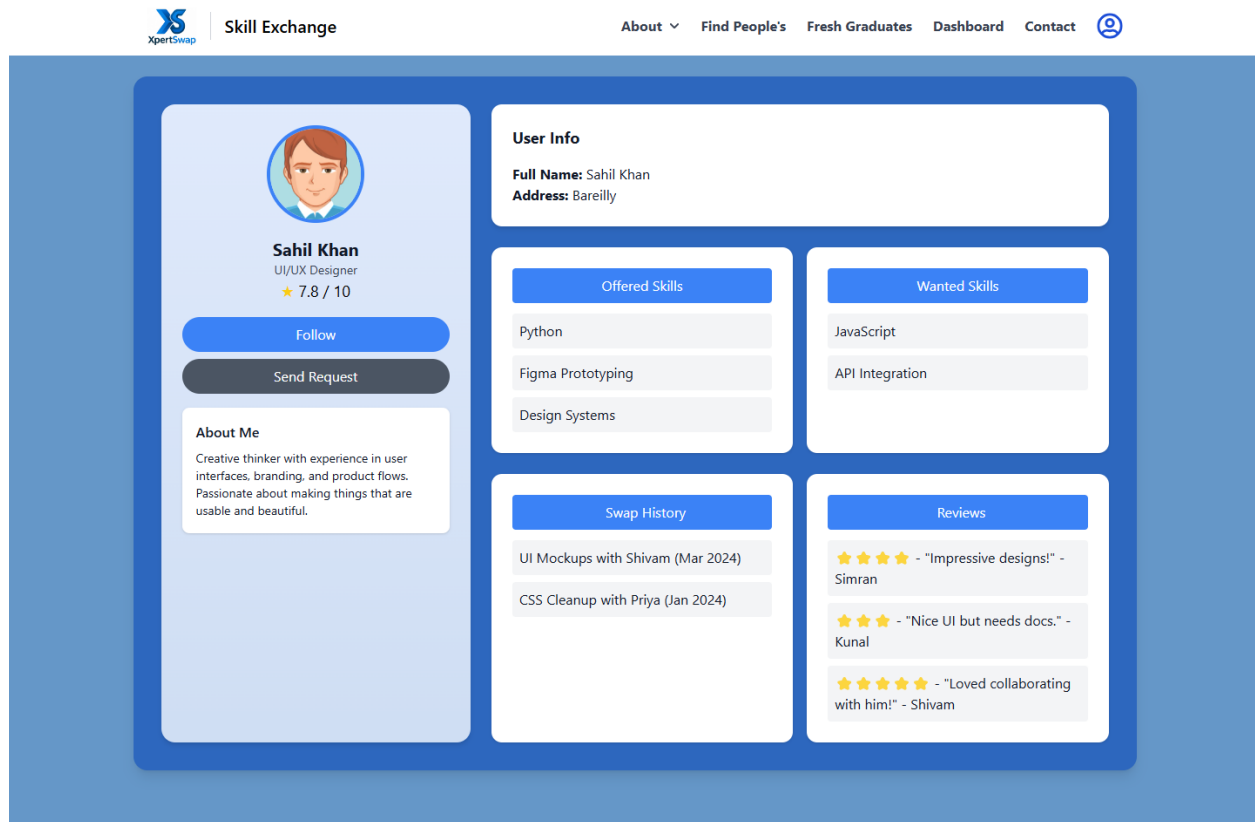

Step 4: Click on the Dashboard to view your activity summary. You'll see how many skills you've offered, swaps you've completed, and reviews received. It also gives you quick access to find people, check your requests, and chat with others.

Step 5: Click on the **Find People's** button to open the Globe Connect page. Use the search bar to look for users by skill or name. Matching users will appear in cards showing their name, skills, and profile photo. Click the **View** button to open their full profile and learn more about what they offer.

Step 6: When you click **View** on a user, their full profile opens. You can see their offered skills, the skills they want to learn, swap history, and reviews. On the left, you'll find their profile picture, rating, and buttons to **Follow** or **Send Request**. If you're interested, click **Send Request** to open a form and start the skill swap process.

Step 6: After clicking **Send Request**, a form appears. The date and time are pre-filled. Just enter your name, the skill you can offer, and the skill you want to learn. Once completed, click the **Send Request** button. A confirmation message will appear, letting you know your request was sent successfully

Send Request

Have a skill to share or one to learn? Let's connect!

Full Name *

Skill You Know *

Skill You Want to Learn *

Date

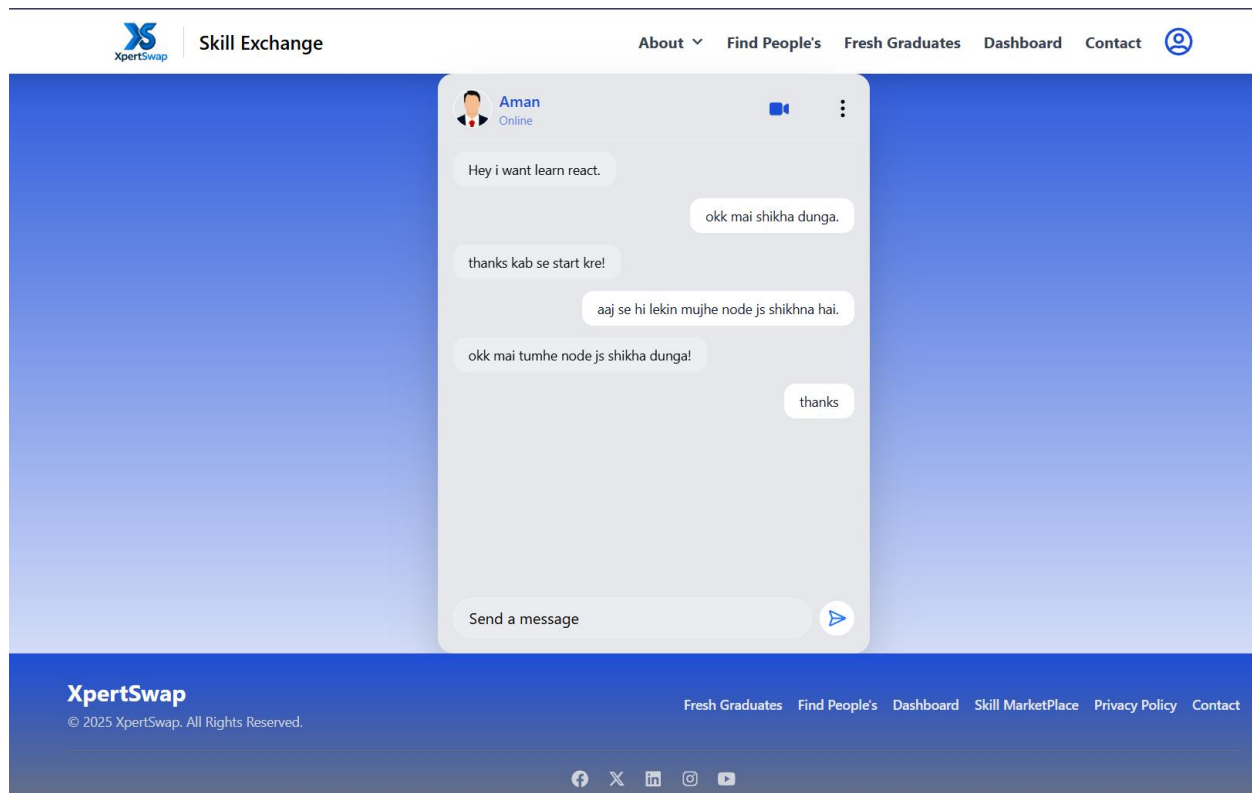

04/23/2025

Time

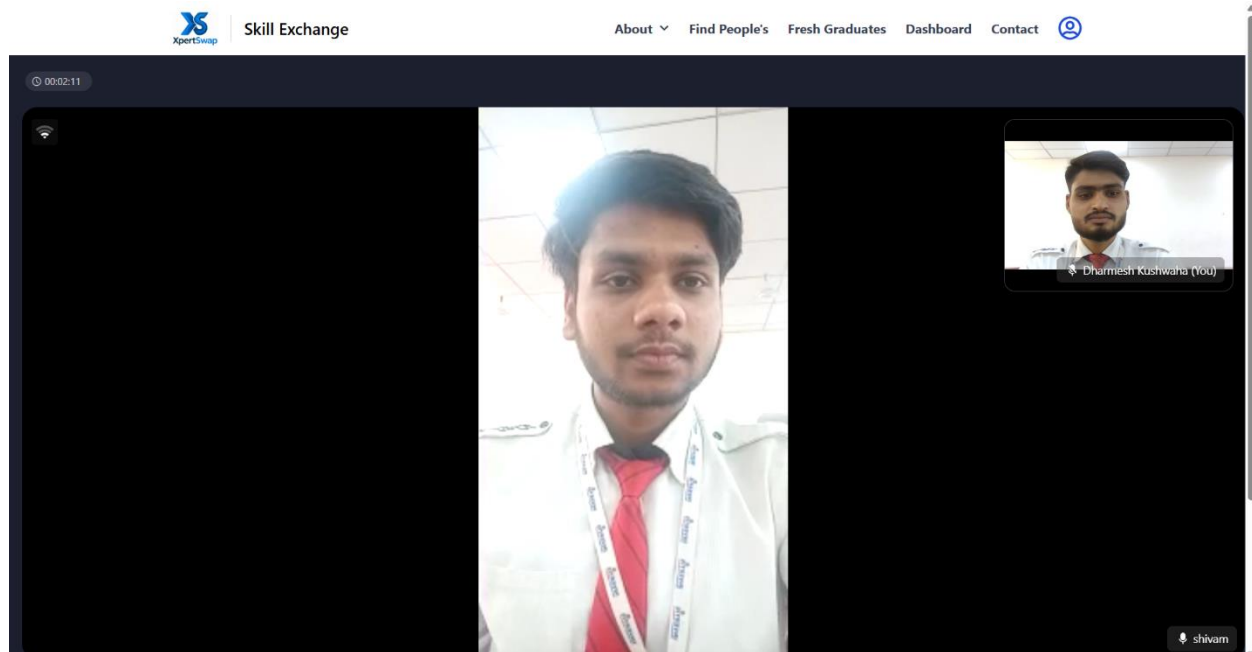

04:27 AM

Send Request

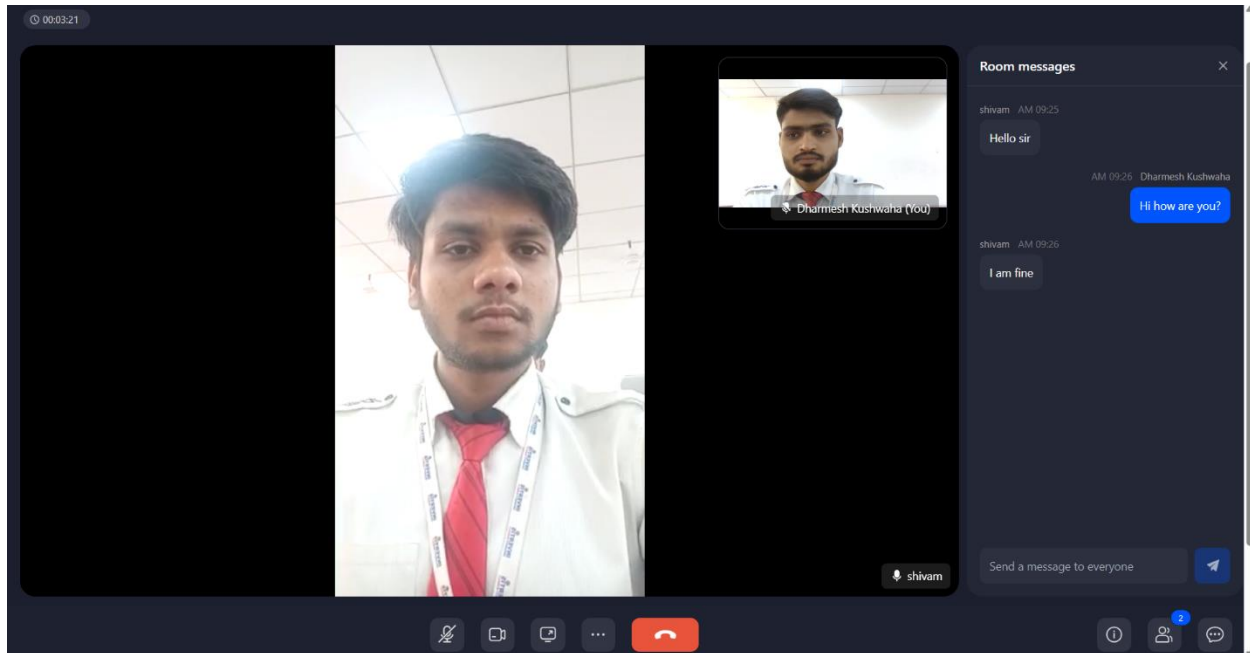

Step 7: Once you've sent your request, wait up to 24 hours. If the other user accepts, you'll be notified via email and on the website. After that, go to your **Dashboard** and click the **Chat** option to start a conversation. If both of you agree you can begin swapping skills!

Step 8: Once both users agree to the skill exchange, they can begin swapping their skills through a **peer-to-peer video call** on the platform. The exchange is designed to be balanced: on the **first day**, one user shares and teaches their skill, and on the **next day**, the other user teaches theirs. This one-day gap allows time for the learner to **review and practice** the topic before moving on to the next session.

Step 9: During the video call session, users have access to additional features like **chat** and **screen sharing**. The **chat section** is especially helpful for asking questions, clearing doubts, sharing useful links, and typing out important terms or instructions without interrupting the flow of conversation. It acts as a mini notepad and support tool during the live session, making the learning experience more interactive and effective.

Step 10: After a successful skill swap, both users receive rewards in the form of experience points and a small monetary bonus in dollars. As users continue participating in sessions, their profile level increases, unlocking access to advanced features and exclusive opportunities on the platform. Additionally, verification badges are awarded at different levels to showcase trust, consistency, and expertise. These badges not only boost credibility within the community but also enhance the user's portfolio and visibility across the XpertSwap platform.

Step 11: XpertSwap is more than just a platform — it's a lifelong learning ecosystem. After completing swaps and leveling up, users are encouraged to explore new skills, dive into different domains, and connect with diverse experts. The learning never stops here. Whether you're sharpening your strengths or stepping into something completely new, the platform empowers you to take charge of your journey, one skill at a time.
